For immediate release:

Hardy Process Solutions Selected as a Top Supplier of Weighing Systems in Control Magazine's 2016 Readers Choice Awards

SAN DIEGO, CA – February 29, 2016 – Hardy Process Solutions (www.hardysolutions.com) has been honored again as a top supplier in Control Magazine's 2016 Readers Choice Awards. The annual awards are based on the input of more than 1,000 global Control subscribers, who nominate suppliers based on their real-world experience with specific products and brands. The open-ended survey presents a series of questions about preferred vendors in 80+ categories. (There are no pre-selected choices, so every supplier has an equal chance of inclusion.) Winning companies represent those that automation professionals count on to deliver the best combination of performance, ease of use, reliability and reasonable cost. Hardy was named in the Weighing System/Load Cell category, which includes essential field equipment, instrumentation and devices.

"We are honored to be recognized again by our customers," said Chris Prazak, General Manager, Hardy Process Solutions. "It is a reflection of our commitment to continually innovate and deliver the best weighing systems in the industry."

ABOUT HARDY PROCESS SOLUTIONS

Headquartered in San Diego, California, Hardy Process Solutions has been providing customers with process control solutions for over 90 years and is best known for its innovative technology. The company prides itself on its ability to continuously provide superior product quality and excellent customer support.

Hardy, an ISO 9001-certified manufacturer, currently services the food, chemical, petrochemical, pharmaceutical, feed & grain, mining & metal, pulp & paper, oil and gas, power, and general automation industries. We have developed the most interface connection options in the process industry, including DeviceNet, ControlNet, EtherNet, EtherNet/IP, Remote I/O, Profibus, Modbus TCP, Analog, and Serial.

Hardy Process Solutions is also a proud Encompass Global Partner with Rockwell Automation®. We are an industrial scale company, offering accurate weighing scales including floor scales, load cells, platform scales, and more. Our plug-in weigh scale modules fit directly into MicroLogix 1500, CompactLogix, ControlLogix, SLC 500, and PLC-5 Allen-Bradley PLCs.
